

IT Services for Student Anhalt University

Services

All students of Anhalt University, after being successfully enrolled, have various centrally and departmentally administrated IT services at their disposal like

Email, data storage, back-up, printing, websites, network services

You received your login data (user name, initial password) with your immatriculation documents when you first registered at the Student Services (ASA).

Important Information

ASA-Service-Portal (HIS-QIS)

Web address: <https://service.asa.hs-anhalt.de>

User name : xxxxxxxx

Password : xxxxxxxx

1

Registering back for Summer Semester 2017

Period from : 15.02.2017 til 16.03.2017

Student email address (Sample for email-address)

E-Mail: max.mustermann@student.hs-anhalt.de

Your 1. Access

Before starting to use the services please change the initial password to a new personal password at

<https://selfservice.hs-anhalt.de/selfservice>.

To do so you need your personal login data **1**, as you find them on your immatriculation documents. Please also mind the password guidelines you'll find on the right hand side.

With the changed password you

- have access to **your personal email account**
- can log in at the **computers** in the university's IT-Pools
- can log in at the official **study program websites**
- may use the **officially „Filr cloud“**

The ASA-Service-Portal (HIS-QIS)

The platform for administration and organization of your study data is the **ASA-Service-Portal**, in short called **HIS-QIS**. After successful log in you have access to

- Your personal data
- Schedules [for german-speaking programs]
- Examination schedules [for german-speaking programs]
- Documents as Proof of registration -> "Studienbescheinigung"
- Information on Registering back
- Forms

You log in to this ASA-Service-Portal

<https://service.asa.hs-anhalt.de> also with your personal log-in data **1**. Next step is to change your initial password.

The ASA-Service-Portal is at the moment NOT being synchronized with other IT-systems.

Mobile Network Access

The ZIK (Centre for Information and Communication Technology) is operating a wireless network (wireless local area network, WLAN) (WiFi) on campus. Information on installing are to be found at

<https://helpdesk.afg.hs-anhalt.de/index.php/netzzugang/mobil-laptop-smartphone>
